Include the dates of the reporting period and details, as appropriate, on tangible outputs and outcomes, collaborations or partnerships with other organizations, additional funding received to support activities, lessons learned, and plans, if any, to continue grant activities.

II. Grant Outcomes (maximum of 5 pages)

The following outline is a guide to the information to be provided in the post-grant report narrative. Use the format as appropriate for your organization's request.

A. Anticipated Results and Outcomes Achieved

If applicable, provide demographic and geographic information regarding the community or population that benefited from or was served by the grant.
- 3. Summarize the anticipated results (outputs and/or outcomes stated in the original proposal) and the degree to which they were achieved during the reporting period. Provide quantitative and/or qualitative evidence that demonstrates and measures success of the grant activities.
 - For general support requests, describe how the grant affected organizational capacity, sustainability, and achievement of measurable results for the organization. Provide examples, if possible.
- 4. If applicable, indicate additional funding received to support program or project activities (amount and sources) or other factors that affected achievement of results.

B. Lessons Learned and Sustainability

- 1. Describe any lessons learned related to implementation, scope of activities, target population, collaborative relationships, measuring impact, or other factors. What advice would you share with others seeking to do similar work?
